About

Hi, I'm Ömer Faruk Demirsoy, a passionate software developer currently studying Electrical and Electronics Engineering at Abdullah Gül University. I specialize in building dynamic mobile applications with Flutter and React Native, and developing websites with Next.js. My GitHub profile highlights my commitment to continuous learning through personal and collaborative projects. With experience as a frontend developer in startups, I thrive on new challenges and leverage tools like Jira, Toggle, and Slack for effective team collaboration. My dedication to self-improvement and deep interest in technology drive my progress in the ever-evolving field of software engineering.

My Experiences

C2B Technology Intern (Mobile App Developer)

Remote

Sep 2022 – Feb 2023 • 6 mos

- Enhanced the GetStream Chat infrastructure for Android and iOS apps, contributing to production-level development.
- Developed mobile app clients based on Figma designs using React Native, ensuring efficiency and adaptability.
- Implemented and managed social authentication processes across mobile platforms.
- Managed version control and source code using GitHub.

C2B Technology Frontend Developer (Full-time)

Remote

Feb 2023 – Jul 2024 • 1yr 6 mos

- Applied and adapted MVM and MVVM models for optimal project development.
- Gained experience with Firebase, OneSignal, Insider, GetStream, and Rollbar.
- Utilized Jira for bug tracking and agile project management.
- Managed time and tasks effectively using Toggle.
- Developed web applications with Next.js for Tarifist.

Fiverr Freelance Developer

Freelance Remote

Sep 2023 – Present • 1yr 1 mos

- Developed a responsive real estate website with Next.js, incorporating advanced search and user authentication for an optimal user experience.
- Created a cross-platform mobile app using Flutter, integrating push notifications, real-time updates, and APIs for consistent data across iOS and Android.
- Delivered projects punctually with positive client feedback, fostering ongoing partnerships.
- Boosted user engagement and satisfaction through effective design and development.

Co-Founder & Lead Mobile Developer

Remote

Feb 2024 – Present • 8 mos

- Directed mobile app development with a focus on delivering exceptional user experiences.
- Contributed to web and backend development for seamless cross-platform integration.
- Acquired extensive project management experience, overseeing end-to-end development cycles.
- Advanced business growth by integrating and optimizing third-party services for marketing and strategy.

Education

Abdullah Gul University (2020 -)
Electrical and Electronics Engineering

Languages

Turkish	Native
English	B2 First
